WORK EXPERIENCES

Wave, Toronto - *Software Developer Coop*

MAY 2015 - AUG 2016

- Built front end components for the new Transaction list, create, edit, and filter views, in React.js with Redux and Immutable.js.
- Contributed significantly to the accounting backend REST API, written in Django.
- Refactored the weekly email system, went from delivering as low as 5% of the intended volume to consistently delivering over 95%.
- Automated subscriptions and payments for the premium support product.

Faculty of Engineering Registrar's Office, Toronto - *Work-Study Student*

SEPT 2014 - FEB 2015

- Set up and provisioned LAMP servers.
- Configured network security scanning software.
- Contributed documentation to the internal security wiki.
